OUR JOURNEY

EZYPRO was born from a vision to solve the long-standing challenges of the construction industry. Mr. Shahzad Ayub started this journey back in 1998 after graduating from UET Pakistan. With over 25 years of hands-on experience and a deep understanding of Pakistan's unique construction landscape, our team has built an all-in-one solution tailored to meet the industry's demands. EZYPRO streamlines every phase of construction projects, reshaping how projects are planned, executed, and delivered, empowering teams to overcome obstacles with efficiency and precision.

OUR MISSION

Our mission is to empower construction companies with smart solutions that simplify project management, enhance efficiency, and ensure successful project delivery. We strive to revolutionize the way construction projects are managed by providing innovative solutions that help teams work smarter, faster, and more effectively.

OUR VISION

The construction industry struggles with delays, cost overruns, and limited transparency due to outdated practices. EZYPRO aims to transform the industry with digital solutions that simplify processes, enhance collaboration, and provide real-time insights.

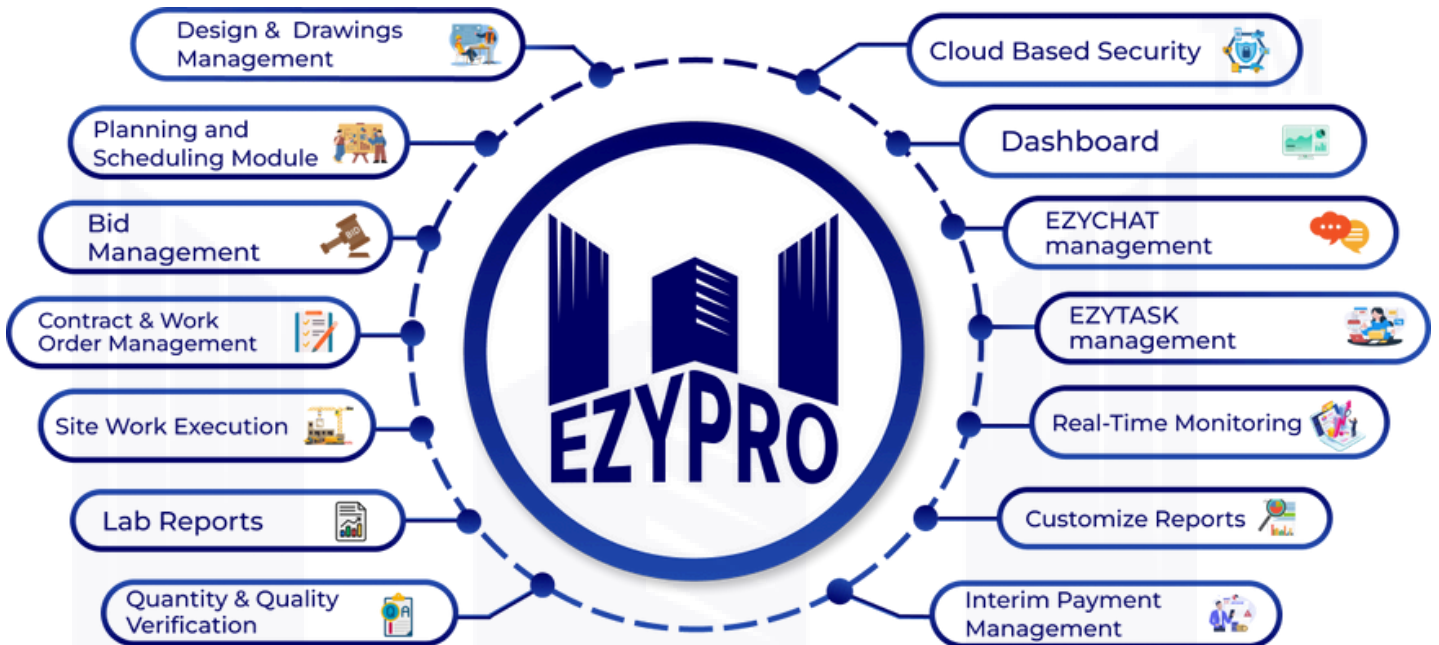

ABOUT EZYPRO

EZYPRO is Pakistan's 1st cloud-based construction project management software, designed to empower professionals across the globe. It's an all-in-one platform that simplifies every stage of a project, from design and contractor selection/bidding to final billing. By streamlining operations, EZYPRO ensures everything runs smoothly, remains transparent, and meets all standards. **It significantly reduces project costs by ensuring transparency in all invoices and billing.** Plus, it provides real-time monitoring from anywhere, anytime, with live project updates.

FEATURES OF EZYPRO

Complete Construction Management software

- **Design & Drawings Management:** Manage design stages with multiple approval levels to ensure Proper execution and compliance.
- **Planning & Scheduling:** Streamline construction management by breaking tasks into WBS components, linking them to BOQ items for accurate cost tracking. Gantt Charts enable teams to visualize timelines, monitor progress, and ensure efficient scheduling for timely project delivery.
- **Bid Management:** Stay competitive and secure the best projects with our streamlined bidding management system.
- **Contract & Work Order Management:** Work Order Management: Simplify task allocation and tracking, ensuring every team member is aligned and on the same page.
- **Site Work Execution:** Optimize on-site efficiency with tools for planning, tracking, and managing every aspect of site work to ensure smooth execution and timely project delivery.

- **Lab Reports:** Make informed decisions with timely lab data.
- **Quantity & Quality Verification:** Maintain high standards with detailed quality assurance and control checklist.
- **IPC & Liability Management:** Easily generate Interim Payment Certificates and manage liability sheets to mitigate risks.
- **Custom Reports:** Make data-driven decisions with a variety of customizable project-related reports.
- **Real-Time Monitoring:** Gain real-time insights into project progress, address issues promptly, and keep your projects on schedule.
- **EZYTask:** Manage issues effortlessly with the ticketing system. Create, assign, and prioritize tasks for timely resolution and streamlined workflows. Keep your team organized and efficient.
- **EZYChat:** Enhance communication with EZYPRO's live chat. Collaborate instantly, resolve issues, and ensure smooth workflows for successful project execution.
- **Cloud Security:** Keep data secure with encryption, secure access, and backups.

Streamline entire workflow

Step into the future of construction with
**Pakistan's 1st full-scale construction
management software**
